Professional Experience

Software Developer
Thread in Motion
2024/10 – 2025/01 | Istanbul, Turkiye (Remote)
Software Developer experienced in embedded Superset solutions, combining containerized deployment, modern frontend frameworks, and AI tools to deliver advanced analytics capabilities.

Intern Software Developer
Thread in Motion
2024/07 – 2024/10 | Istanbul, Turkiye (Remote)
Contributed to the development of a Warehouse Management System, collaborating with Solution Architect on system analysis and specifications. I designed UI/UX mockups and implemented full-stack functionalities using React.js and Node.js, developing reusable frontend components and RESTful APIs. Built backend services for inventory tracking, order processing, and warehouse operations while ensuring efficient data flow between client and server.

Operations Executive
Wilmar Europe Trading BV
2022/03 – 2022/07 | Rotterdam, Netherlands
Track shipments, manage shipping documents, handle customs documentation, input bookings into SAP, and prepare reports to ensure timely supply to factories and customers.

Product Specialist
The Freight Report
2019/05 – 2021/03 | New York, USA
Established eCommerce freight market database, created targeted contact list, gathered customer feedback for data system improvement, and monitored shipping market reports for various destinations.

Data Anatator
Textkernel
2019/01 – 2019/03 | Amsterdam, Netherlands
Temporary Annotator role for AI System Implementation.

Ship Broker
Rmit Maritime International Trading
2005/02 – 2017/12 | Istanbul, Turkiye
Managed cargo trading vessel database, prepared monthly financial reports for shipowner office, facilitated customer interactions for contract development, prepared voyage charter-party.
